"In view of these facts," says Mr. Blaine, "it is possible that a protectionist Congress can even think of opening our markets to Cuba's products free while all our great western industry will be absolutely excluded from her markets by a prohibitory tariff. With reciprocity the west can annually sell 100,000 barrels of flour in Cuba and Porto Rico, together with a large mass of other agricultural products. Without reciprocity, she will be driven more and more from these markets. Giving the fullest protection to all east ern interests as the proposed tariff bill does, surely no man of good judgement, certainly no protectionist of wise forecast, wishes to expose a western interest to serious injury, especially when it is manifestly easy to pratect and to serious injury, especially when it is manifestly easy to protect and promote it, manifestedly easy because at this very time boards of trade, chambers of commerce and public opinion in Havanna are demanding reciprocial treaty with the Hairad States.

Her success in the many operatic ventures of Prof. Stephons, in which she has always borne prominent parts with honor, has shown that her abilities have not yet been developed. To this end friends have constantly urged her to increased endeavor, and yesterday Miss Dean started for New York to take a two year's course in voice culture and instrumental music. Her efforts in class teaching in the public Her efforts in class teaching in the public schools, as assistant to Prof. Stephens have borne the best of fruits, her manner of holding the attention of pupils being especially good. Her rendition of several beautiful numbers of the May festival is still fresh in the minds of many, and her frequent solos in connection with the tabernacie choir, have made her a favorite with both old and young. She carries the respect and love of all who know her. Accompanying Miss Dean, Mr. William Allison, formerly of Coalville, but of late years a resident of this city, will go to take a full course of law at Cornell university. Mr. Allison is a bright young man, and will no doubt make his mark in whatever community his lot may be east.

the American Union Into Through Annexation?

THE DOMINION IS AGITATED

over this Important Question-A Government Organ Openly Advocates this Policy, and Gives Good Reason Therefor.

Special to THE HERALD -Examiner Disputch.) OTTAWA, Sopt. 16 .- The fact can no onger be disputed that the annexation question is fast becoming one of the live essues of the day, and will play an important part in the political future of Canada. It matters not what part of the Dominion one looks to, there is to be found evidence of dissatisfaction at the existing state of affairs. Leading public men bave not nesitated to call attention to the increasing popularity of the movement for closer trade and social relations with the United States, in fact, in some individuals going

One of the government overans has come out squarely for separation from England. The Quebec Telegroph says: "If we grepermitted to gauge current events in Canada we shink that annexation to the United States is making great headway among the people. It is conting, and that before long. Sir John may preach all kind of doctrines; he may climb up on Johnny Buil's back and become the last man on earth to secent the platform, but dollars and cents will bring it about. The McKinley bill is passed by a large majority, and that doals a hard blow to the commerce of Canada. England, we are told, is as ready to give up Canada and Newfoundiand as Heligoland. Now what can we do in this part of Canada without the United States. We are positive that at least this part of the country would be in a thriving condition if we had America merged into one general confederation. How would Brother Johnshan meet us! But with an expression of loy and comfort, dollars and cents. Property would beom and commerce with the world would be carried with a ring which would bring comfort and glory to the masses. A few days ago the stars and stripes were raised over the custom bouse in Montreal, and now they are flying over the grounts of the Toronto exhibition. What is to prevent them being raised over the mation at some future perioa? Something must be done, because we cannot stand this tariff tinkering at Ottawa any longer. This country is, in plain words, going to the Old Nick, and if at the next general election reformers do not become aware of the situation, we will be starred

A little open secret which is "not down on the bills," so to speak, but which a friend of the couple let a Hraate man inte, is that Miss Dean will be Mrs. Allison before they leave Logan, on their way cast. Owing to the short time the lady and gentleman have to reach their destination in order to begin with others, there could be no wedding reception. The many friends of both would have been much pleased to have testified their good will by giving one. "Give my love to all who love me" is all Miss Pean and time to say as the evening train pulled out, and a crowd of friends who had hastily collected to see her off turned sadly homeward.
